

## Schedule 19 Pricing Model

(Part 13)  
(Section 13.8)  
(Schedule 3)

- 1) Effective with quota period **A-151** the Board will set a live price for mainstream chicken in accordance with the following formula.
- 2) **BC Posted Price = Ontario Price + \$0.0365 (catching) + 75% of the difference in the feed and chick costs of growing a kilogram of live chicken between Ontario and British Columbia.**
  - a. The Ontario price will be the posted price at the weight category (2.45 kgs to 2.65 kgs).
  - b. The difference in feed and chick costs will be calculated based on a 6 period rolling average.
  - c. The price is inclusive of catching at 3.65 cents per kilogram. Any increase or decrease to the price of catching must be approved by the Board and will be reflected in the BC live price going forward.
  - d. Guardrails: The differentials between the Ontario and BC live prices will be set at a maximum of \$0.1249 and a minimum of \$0.0970. The guardrails are to be a “ceiling” and/or “floor”. The guardrails will be adjusted to reflect any approved changes in catching costs.
- 3) The Board may vary the formula described in 2 above when it makes a finding of exceptional circumstances in accordance with Schedule 2(7) of these Orders.
- 4) The pricing formula will remain in place for quota periods A-151 through A-156 inclusive. This interim formula will be reviewed upon the completion/implementation of the updated Ontario COPF and/or the completion of the BC initiatives respecting Pricing Linkage and update to costs for BC chicken production which may occur prior to the completion of quota period A-156.

Amended by Board Motion June 27, 2018

These orders are in effect until amended or varied by further order of the Board.  
Thank you for your attention to this matter.
