BRITISH COLUMBIA CHICKEN MARKETING BOARD

Mr. Kevin Klippenstein, Chair

Note: The Board by way of motion on July 17, 2025, after consulting with the processors and growers agreed to make a correction to the live price over approximately 6 periods. The Board reserves the right to apply across more or less than 6 periods, as required. The live price was overstated in A-194, A-195, and A-196 due to an error in the annual updates which have now been corrected. Now that A-196 production is finalized, the Board will provide full reporting of the errors and adjustments to be made for the balance of the periods. The BCCMB understands that for the COP to be effective, it needs to accurately reflect the growers' true cost of production. The COP (below) in A-198 has been reduced by 0.013\$/kg live weight to give a Live Price of \$2.2342

Calculation: **COP A198 – 0.013\$ = Live Price A198**

1. The BC COP formula is as follows:

(a) Operating Costs + (b) Labour + (c) Capital Costs = COP
